MandrakeMove

Mandrake Linux

Discover a truly portable version of the famous Mandrake Linux operating system!

MandrakeMove: Mandrake Linux on a bootable CD-ROM

Just insert MandrakeMove into a CD-ROM drive, boot from the disc, and few seconds later enjoy a complete and full-featured Mandrake Linux operating system. No tricky installation process, and no risk to existing data on hard drives. MandrakeMove automatically detects your computer's hardware during the bootup process and optimally configures each device for the most trouble-free Linux experience imaginable.

For the first time on a bootable CD-ROM, discover all the advantages that have made Mandrake Linux one of the most popular Linux distributions in the world: discover the powerful graphical tools and utilities, high-performance system optimizations, impressive selection of first-class applications, and the world-famous "Mandrake touch".

Greater mobility!

MandrakeMove introduces many unique features that make it the ultimate portable productivity tool, including:

- CD-ROM ejection - After the system boots from the CD-ROM, simply eject the MandrakeMove CD and replace it with your own CD for listening to music, watching videos & movies (including DivX™ encoded files), or anything else you desire. Simply click a desktop icon, replace the MandrakeMove CD with your own CD and let the music play!

- Data storage. The main challenge with a bootable CD-ROM system is that without a hard drive, it can be difficult to save system settings and personal data. MandrakeMove solves this issue by storing data to a USB key. The MandrakeMove CD combined with a USB key gives you complete access to a fully functional and highly productive operating system that can be used anywhere and anytime.

MandrakeMove: Mandrake Linux on a bootable CD-ROM	
User-friendliness	The KDE graphical desktop environment provides a highly intuitive and familiar 'look and feel' in Linux.
Internet Tools	Email Client (Kmail), Web browser (Konqueror), FTP client (Kbear), instant messenger (Gaim), etc. Everything needed to take full advantage of the Internet.
Games	Hours of fun with Frozen Bubble, Lbreakout2, TuxRacer, etc.
Office Productivity	Work wherever and whenever you want with the full-featured Office suite OpenOffice.org 1.1, fully compatible with Microsoft® Office™ documents (.doc, .xls, .ppt).
Documentation	Starter guide, online walkthrough and "How to" guides. No matter where you are, you'll never be lost with MandrakeMove.
Hardware support	MandrakeMove includes advanced hardware support based on the Mandrake Linux distribution.
Plugins and players	The most popular multimedia formats are supported (including Acrobat® Reader™, RealPlayer™, Flash™, Java™, ogg vorbis, mp3®, wav, mpeg, DivX™, Xvid, etc.).
With greater mobility!	
No installation process	Computer boots directly from CD-ROM without a hard disk. No risk of losing existing data.
CD-ROM ejection	Listen to your favorite music CDs and video discs - this now becomes possible everywhere.
USB key support	Use MandrakeMove with a USB key so your personal data and settings are automatically loaded and saved: Get the same desktop on every machine you use; protect your desktop with a screensaver password; automatically encrypt data on a USB key - MandrakeMove remembers who you are and what you've done.
Internationalization	MandrakeMove is available in five different languages: English, French, German, Italian, and Spanish.
